

"the consolidated technology services agency -RCW 43.105.006"

Service Announcement

February 9, 2016

TO: WaTech Telecommunication Customers
FROM: Eric Talberg
Telecommunications Services Division
SUBJECT: Remote PBX Consolidation

In an effort to adopt emerging technology, simplify service and offer more features, WaTech Telephony Services is moving to a unified platform by consolidating phone systems (PBXs) to the State Data Center (SDC).

This notice is to communicate our plans to begin work on that effort by moving the connectivity of remote PBX systems in Eastern Washington from the Spokane PBX to the PBX at the SDC. Our current target date to start this effort is late February 2016. The conversion process is expected to last 18 months.

WaTech Telephony Services will be working with our customers and business partners to re-route locations to the unified system. To minimize service disruption, WaTech Telephony Services will collaborate with each customer throughout this process and ensure concerns are addressed prior to implementation.

Impacts will be identified on a case by case basis; although, each implementation will require a brief coordinated outage to re-connect services for each customer site. The chief difference on the new system will be the need for users at the converted locations to dial 9+10 digits for all calls, i.e., area code and 7 digit phone number, when placing a call or calling between sites. The project implementation team will be on-point for each conversion to assist with questions and concerns.

WaTech Contacts: For questions or comments, please contact Eric Talberg at (360) 407-8736 eric.talberg@watech.wa.gov or the WaTech Service Desk, 360-753-2454 or 888-241-7597 or servicedesk@watech.wa.gov

List of customer agencies involved with the Spokane remote PBX consolidation:

<u>Agency</u>	<u>Locations</u>
Department of Social and Health Services	13
Department of Corrections	3
Office of Administrative Hearings	1
